Ground School – In only 48 hours of Ground school you will learn Navigation, Meteorology, Air Law and General Knowledge.

Dual – Your Flight Instructor will show how easy and fun it is to fly an aeroplane in as little as 25 hours! This will prepare you for your Flight Test and teach you to become a safe pilot.

Solo – Your first solo flight is something that you will remember forever! This stage of flying is normally completed in your first 15 or 20 hours of training, and is the first time you fly without an instructor on board the aircraft.

Private Pilot Licence – Once you have met the requirements for this you will be able to take friends or family members with you when you go flying. Imagine going to Toronto for lunch or add a night rating to your licence and go on overnight trips!
